

# Timetable of the Oral Session in the XIX INQUA Congress in Nagoya (Final version)

2019. 4. 7

	27 July	28 July (Tue)			29 July (Wed)			31 July (Fri)			1 Aug. (Sat)			2 Aug. (Sun)												
	PM (17:00-18:50)	AM1 (9:00-10:50)	AM2 (11:10-13:00)	PM (17:00-18:50)	AM1 (9:00-10:50)	AM2 (11:10-13:00)	PM (17:00-18:50)	AM1 (9:00-10:50)	AM2 (11:10-13:00)	PM (17:00-18:50)	AM1 (9:00-10:50)	AM2 (11:10-13:00)	PM (17:00-18:50)	AM1 (9:00-10:50)	AM2 (11:10-13:00)											
Reception Hall A [360]	<b>S02</b> [6] Chronostratigraphy of the Arctic Ocean	<b>S06</b> [20] Eolian deposition and Earth surface systems			<b>S08</b> [21] Innovative Development and Applications in Quaternary Geochronology			<b>S05</b> [14] Connecting with past environments using tephrochronology		<b>S04</b> [9] Connecting with natural hazards and		<b>S01</b> [17] Early-Middle Pleistocene transition: local records, global correlations			<b>S03</b> [13] Progress in European Quaternary stratigraphy											
Reception Hall B [360]	<b>P02</b> [17] Palaeoclimate modeling in PMIP			<b>P15</b> [6] Quantify climate feedbacks		<b>P31</b> [17] Peat deposits during the Quaternary			<b>P09</b> [27] Holocene rapid climate changes			<b>P32</b> [12] Holocene warm period of mid-latitude lakes		<b>P03</b> [14] ACER IFG initiative												
Room 131-132 [162]	<b>P20</b> [6] Marine and continental paleoclimates	<b>P13</b> [12] Palaeogeology of Quaternary ice sheets across Eurasia		<b>P17</b> [5] Comparing field-based evidence with		<b>P30</b> [5] East-Central European paleoclimate		<b>P16</b> [10] MIS 3 Glaciation			<b>P25</b> [6] Sea ice in the Quaternary		<b>P33</b> [6] ocean circulation		<b>P10</b> [8] Marine paleoclimate proxies		<b>P26</b> [7] Global expression of Quaternary		<b>P08</b> [12] records from the high southern latitudes		<b>P14</b> [13] Antarctic ice sheets and the Southern Ocean					
Room 133-134 [162]	<b>P06</b> [17] Enviro-/climatic changes, Mediterranean			<b>P22</b> [24] Asian monsoon variability recorded in sediments			<b>P21</b> [27] Tibetan Plateau and arid Central Asia			<b>G02</b> [10] Interdisciplinary Quaternary research			<b>G01</b> [12] Tipping Point in the Late Quaternary													
Room 141-142 [360]	<b>P04</b> [23] Understanding interglacial climate				<b>P24</b> [7] Extreme environments		<b>P28</b> [8] Modern calibration of palaeoenvironment		<b>P01</b> [5] Terrestrial palaeoclimates, palaeosols and			<b>P27</b> [12] Climate changes from lake sediments		<b>P35</b> [8] Magnetic proxies retracing		<b>P19</b> [7] Islands in time		<b>P18</b> [7] Seasonal palaeo-environmental		<b>P23</b> [5] Reconstructing historical climate		<b>P34</b> [11] Environmental changes in high-resolution sedimentary records				
Room 221 [126]	<b>H28</b> [4] Immigration above the tide line	<b>H18</b> [6] Hominin evolution and cultural		<b>H16</b> [8] agricultural societies		<b>H13</b> [6] New frontiers in ancient midden research		<b>H21</b> [7] human adaptations in C. Asia		<b>H29</b> [5] Organisms/environments		<b>H19</b> [9] bifacial technologies			<b>H26</b> [13] Climate change and human evolution		<b>H11</b> [9] Chronology in human evolutionary		<b>H20</b> [7] Geoarchaeology of submerged/buried		<b>H23</b> [3] Isotope ecology of migration		<b>H27</b> [5] West African dynamics of fluvio-lacustrine		<b>H17</b> [10] Land-sea-human Interactions	
Room 222+223 [252]	<b>H24</b> [4] Use of Sporormiella		<b>H03</b> [18] LGM prehistory in Northern Eurasia			<b>H31</b> [17] Human behavioral variability in prehistoric Eurasia			<b>H32</b> [19] Geoarchaeology: integrating palaeoenvironmental and archaeological records			<b>H07</b> [16] Geoarchaeology: paleo-geohazards			<b>H12</b> [13] Prehistoric use of plant resources											
Room 224 [288]	<b>H10</b> [17] Identifying human activity			<b>H06</b> [7] Palaeobiogeographical and cultural		<b>H14</b> [13] Human dynamics in hot deserts		<b>H30</b> [9] Domestication in E. Asia			<b>H22</b> [20] Long-term palaeoecological perspectives of biodiversity, community dynamics and ecological function			<b>H02</b> [18] fire-humans-climate-vegetation nexus			<b>H04</b> [11] Wetland archaeology									
Room 231 [126]	<b>G03</b> [7] Quaternary human activity		<b>H08</b> [4] Biosphere, artificial and natural		<b>H05</b> [6] Emergence of the world's oldest pottery		<b>H33</b> [5] landscape resilience and service		<b>H25</b> [6] the first (South) Americans		<b>H09</b> [9] Cultural responses		<b>H15</b> [8] Diversification of flora			<b>T16</b> [7] tropical river systems		<b>T02</b> [21] Palaeohydrology and fluvial archives			<b>T14</b> [14] Beyond steady-state erosion					
Room 232+233 [252]	<b>T05</b> [6] Paleoseismology / EEE parameterization		<b>T06</b> [11] Past seismic records			<b>T13</b> [4] Extreme disasters and responses from		<b>T09</b> [16] Urban disaster mitigation using Geoinformatics Database			<b>T01</b> [6] Past hazards along coasts		<b>T21</b> [12] Earthquake and tsunami risks using geologic records			<b>T19</b> [16] Recent progress of active tectonics and paleoseismology										
Room 234 [288]	<b>T17</b> [9] Legacy of mountain glaciation		<b>T12</b> [6] glaciations		<b>T07</b> [5] Ice sheets and their bed		<b>T03</b> [2] Soil-forming processes and their rates		<b>T04</b> [11] Processes of dust and loess formation and their climatic implications		<b>T20</b> [7] Urban soil development			<b>T08</b> [4] Cryospheric processes		<b>T15</b> [9] Sackung and landslide		<b>T23</b> [5] Combining lacustrine, palaeopedology		<b>T10</b> [4] Terrestrial landforms and marine records		<b>T18</b> [29] Geomorphology				
Room 431 [126]	<b>C03</b> [8] paleoceanography and geochemical		<b>C02</b> [11] Coastal wetlands			<b>C12</b> [7] Comparative paleoecology		<b>C06</b> [13] Coastal land-sea interactions		<b>C07</b> [4] Post-glacial drowning of continental			<b>C10</b> [8] SHELVES		<b>C08</b> [5] Ice-sheet variability in warm climates		<b>C01</b> [5] Sea-level and cryospheric changes		<b>C13</b> [7] Temporal changes in sea-level		<b>C09</b> [4] paleoceanographic variability		<b>C14</b> [13] paleovalley systems			
Room 432 [196]	<b>C11</b> [22] DELTAS			<b>C04</b> [20] paleo sea level records			<b>C05</b> [10] Asian Monsoon and coastal evolution			<b>P05</b> [4] Climate change, tropical S. Pacific		<b>P12</b> [23] SHAPE: a southern perspective on climate evolution over the past 60 kyr			<b>P07</b> [10] South Hemisphere LGM											
Swan Hall [1280]																										
Room 143 [ECR Session]	ECR Session																									

\*Some sessions will have extra-time for 1 or 2 presentations.

\*Number of presentations are based on number of abstracts whose authors completed registration and payment.

Schedule of the Poster Session in the XIX INQUA Congress in Nagoya (Version 20150407)

(Core time of the Poster Session is 14:00-15:30 @ Event Hall)

	July 28			July 29			July 31			Aug. 1		
	Number of abstract	Registered	Not Registered	Number of abstract	Registered	Not Registered	Number of abstract	Registered	Not Registered	Number of abstract	Registered	Not Registered
